

# ENG Vehicle System

## CodeRunner 2

- The CodeRunner 2 is a “Two box” system using an antenna-mounted RF unit and an interior van-mounted control shelf. Ideal for existing ENG vehicle or new installations. The CodeRunner 2 is the companion to CodeRunner4 Central Receiver. Operation in full NTSC/PAL video or SDI for either analogue or digital transmission with integrated MPEG 4:2:2 Encoding and DVB-T COFDM Modulation.
- Digital Ready COFDM, QPSK and 16 QAM auxiliary IF inputs
- High Power Digital operation provides 6 Watts for COFDM, QPSK operation at 2 GHz and 2.5 Watts at 7 GHz
- High Power Analogue FM operation provides 12 Watts output at 2 GHz and 5 Watts at 7 GHz
- Supports a wide range of application-specific transmitter antenna systems for mobile and fixed antenna operations
- Front Panel Display with Keypad operation
