

'NEWSWIFT' 1.5m DBS band Motorised Antenna

- The 'NewSwift 150DBS' motorised antenna system is a highly compact integrated satellite terminal designed for rapid deployment. Featuring a specially shaped offset fed antenna manufactured in carbon fibre, the 'NewSwift' unique design can also house a redundant/phase combined RF package, mounted within the antenna assembly.
- Rapid deployment.
- Full 3 axis control, includes 360° azimuth range.
- C, Ku, DBS and X band feeds available.
- GPS based auto satellite acquisition package available.
- 800 City database controller.
- Tracking option with beacon receiver.
- Fully remote controllable
