

# STRATA

Vislink is delighted to introduce the STRATA, a new concept for outside broadcast, portable ENG, mobile, or airborne applications. STRATA's modular design removes the constraints of traditional portable radios giving you the ultimate flexibility in deploying a microwave link.

- Lightweight, Modular, Multi-Unit Design
- Analogue, Digital, or Analogue/Digital Switchable
- Transmitters and Receivers with Separate Control Units
- Simplex, Half Duplex, or Full Duplex Configurations
- COFDM Modulation with Selectable Guard Interval
- Digital Modulation for QPSK, 16QAM, and 64QAM
- Analogue Modulation (NTSC or PAL) with 2 Audios
