

UCL Portable Microwave Link, 13.5-16 GHz

The UCL is a rugged portable microwave link transmitter or receiver suitable for use in Broadcast and Telecommunications networks. Supplied as either a 1 box or 2 box solution, the UCL can support either FM analogue or QPSK/ 16QAM digital modulation. A complete range of analogue and digital interfaces are available, with options, for MPEG-2, E1, E2, E3, T1 or DS3 digital traffic.

- Portable OB/Permanent Outdoor
- Synthesised tuning in 100kHz steps
- Video and/or E1/E2/E3/T1/DS3/ ATSC/MPEG transport stream
- True IF repetition
- Channel filters unnecessary
- RS485 remote control
- Colour bar/ident signals (option)
- Dual AC/DC power supplies
- Comprehensive antennas/mechanics
